

2014 Smithsonian Employee Perspective Survey Highlights

Background

- The Smithsonian has been conducting annual Smithsonian Employee Perspective Surveys (SEPS) since 2007
- Survey was administered by Office of Planning & Analysis
- Online questionnaire was distributed via email
- Survey period was June 5 through July 18, 2014
- All Smithsonian employees (full and part time) across four workforces were invited to respond:
 - Federal
 - Trust
 - Smithsonian Enterprises
 - Smithsonian Tropical Research Institute (STRI) employees employed under local Panamanian law

Employee Participation

Of the 5,586 employees invited to respond, **62%** completed the survey. This response rate was lower than the 64% in 2013, but substantially higher than previous years.

Benchmark:

The 2013 Federal Employee Viewpoint Survey was administered to full-time and part-time permanent executive branch employees and completed by more than 376,000 federal workers, for a response rate of **48** percent.

Survey Items

- The survey consisted of 72 items, including many questions from the Federal Employee Viewpoint Survey (EVS) administered by the U.S. Office of Personnel Management (OPM) for executive agencies.
- Respondents were provided a five-point scale to rate the items:
 - Strongly agree
 - Agree
 - Uncertain whether to agree or disagree
 - Disagree
 - Strongly disagree
- Favorable Score = combined responses of “Strongly Agree” and “Agree”
- Questions were organized into 14 thematic clusters (See Appendix for questions in each cluster)
- Cluster scores were calculated by averaging the favorable scores for all questions in the cluster

Best Places to Work

- The Partnership for Public Service uses data from the EVS to rank agencies and their subcomponents according to a Best Places to Work index score. Agencies and subcomponents are measured on overall employee satisfaction and scored on 10 workplace categories, such as effective leadership, employee skills–mission match, pay, teamwork and work–life balance.
- Smithsonian includes specific questions from the EVS that enables SI to be ranked for the Best Places to Work designation.
- In 2013, Smithsonian was ranked #2 among mid-size agencies.
- 2014 rankings have not been announced as of the date of this report.
